REPORTS:

- ❖ Internet: Cordell has continued to work on the website.
- ❖ AT&T are looking at giving \$500 to be a sponsor for the fair.
- ❖ The drill at St. Anthony's Hospital went okay, they requested more volunteers than needed. No real police and fire departments involvement, this time. Hoping for more involvement in the future. The two groups that supplied volunteers were PEP-C and the Rotary Club.
- ❖ Kathy Weymiller with the schools reported that the recommendations for safer schools are being implemented starting with the elementary schools. All agreed that this was great news. Shrubs are being trimmed and fences installed.

Cameras are being installed at the entry ways and there will be commonality of the ID badges from school, and enforcement for the badges to be worn. Also are going to programmed keys for the doors. This is being done with a \$65,000 grant. Comfort kits in the schools are still being requested from the parents. However what has been supplied is unreliable and really varies from I student to the next. Food service is being told to overstock the kitchen with things like food bars and fruit, to use in case of an emergency. The monitoring the expiration dates to rotate the supplies.

With creating commonality amongst the schools in the district, staff can help out at different school as needed in an emergency.

- ❖ Debbie with DEM reported that information was sent to Angela to be distributed. Done deal. Talked about grants for disasters. Don Lee asked about public service announcements being viewed and channel 5 and others. King County is doing some PSA, they may be making the announcement on Channel 5. Debbie with check.
- ❖ No news from the MACC group
